

Act NOW Or Risk Losing Your Nutritional Freedoms!

The Problem:

The Wisconsin Dietitians / Nutritionist Licensing Bill **AB 440 / SB 115 will restrict nutrition services** in Wisconsin to only Registered Dietitians/Nutritionists.

Retailers will be restricted to “general nutritional information” Specific nutritional information would be defined and provided only by Registered Dietitians/Nutritionists.

Nutritionists will not be allowed to practice unless they are a Registered Dietitian/Nutritionist. **All others could NOT practice** or provide any nutrition care services.

All others such as multi-level marketers, nutrition coaches and others **will be restricted** to giving only “general nutrition information” **AND would have to have signs and disclosure statements** saying they are not dietitians.

The Solution:

STOP AB-440 / SB-115

The Actions:

You must tell your state senator and assemblyman that **you oppose this bill**. Only if you **make your voice heard** will your representatives realize that **this is important to you**.

Contact your state representatives by email, phone calls and/or letters.

Then sign petitions, **tell** others, **donate** funds, **volunteer**, **testify** at hearings, **meet** with your legislator, **write** to newspapers, radio stations and TV. **There is a lot you can do!**
